

Cybersecurity Internship - OpenAI

Location: Various (e.g., New York, San Francisco, Chicago)

Job Type: Internship (Full-time/Part-time)

Duration: 3-6 months

About the Role

We are seeking motivated individuals for a **Cybersecurity Internship** to join our team and gain hands-on experience in protecting our organization's networks, systems, and data. This role provides an excellent opportunity to work with industry professionals, learn about real-world security challenges, and develop technical expertise in cybersecurity.

Key Responsibilities

- Assist with vulnerability assessments and penetration testing of applications and systems.
 - Monitor security alerts and help investigate potential threats.
 - Assist with the implementation and enforcement of security policies and controls.
 - Support the development of security incident response plans and procedures.
 - Research and report on the latest cybersecurity threats and trends.
 - Help implement security best practices in daily operations.
-

Qualifications

- Currently pursuing a degree in Cybersecurity, Computer Science, Information Technology, or a related field.
- Basic understanding of networking and information security principles.
- Familiarity with operating systems (Windows, Linux) and network protocols.

- Experience with security tools (e.g., Wireshark, Kali Linux, Nessus) is a plus.
 - Strong problem-solving and analytical skills.
 - Passion for cybersecurity and a strong desire to learn.
-

Preferred Qualifications

- Knowledge of cloud platforms (AWS, Azure, Google Cloud).
 - Experience with scripting languages (Python, Bash, etc.).
 - Cybersecurity certifications (e.g., CompTIA Security+, CISSP, CEH) are a plus.
-

Compensation and Benefits

- Competitive hourly wage (varies by location and experience).
- Mentorship from experienced cybersecurity professionals.
- Opportunity for full-time employment after internship completion.
- Access to professional development resources and training.
